

# It's up to us Support our children's education.

kik  
2019|20

## The math on public education doesn't compute

- \$15,566 annual cost to educate your child
- \$10,184 state and federal government contributions per child
- \$3,530 local taxes to education

- – **\$1,852 annual shortfall per child**

## It's up to us to make up the difference

### \$1.1 million: What kik has pledged to raise to make up the shortfall

**kik** is a parent-run foundation that helps bridge the gap between government funding and the actual cost to deliver the kind of high-quality education our kids need to be successful in high school, college, and life.

*Without the \$1.1 million donated by the community, our students would not be scoring in the top 10% statewide.*

## Every contribution to kik helps Kentfield schools afford...

- Classroom aides
- Teacher specialists
- More 1:1 attention
- Credentialed librarians
- Smaller class sizes
- Enrichment teachers

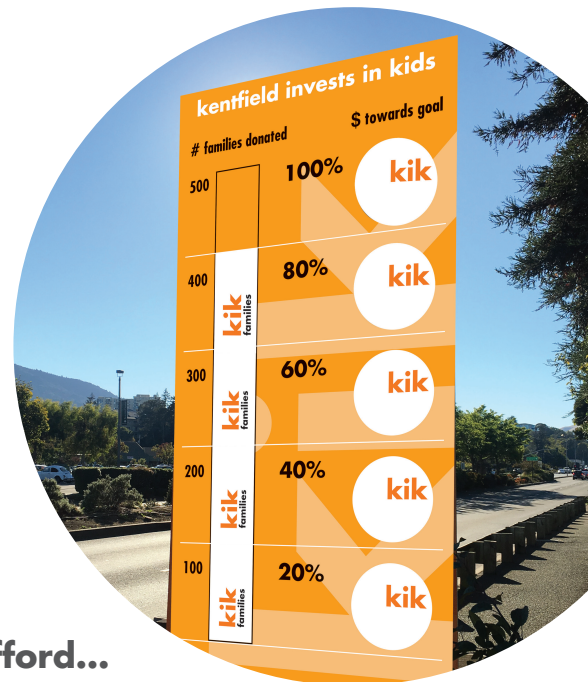

## Plus important programs and classes like...

### Bacich

- Art
- Music
- Physical Education
- Maker Space
- Technology

### Kent

- Art
- Band | Chorus
- Physical Education
- Spanish
- Drama
- Maker Space
- Technology
- Enterprise | Service Innovation
- Woodshop
- Poetry

# 29%

of homebuyers list  
quality schools as the

# #1

factor in their decision.  
(NAR)

Prop 13 mandates  
that property taxes  
can't go up more than

# 2%

a year. As school costs  
rise, this important  
source of funding  
can't keep up.

## Kentfield kids are counting on you to support top-quality education
