

Clean Air, Cool Planet!

Saturday, September 21, 2019

2:00 – 5:30 PM

College of Marin parking lot near gym/pool

Most families do all they can to live “green.” But household driving accounts for 50% of our carbon footprint. When we switch to electric vehicles, both the environment and the family budget benefit in a big way, right away — no more fumes and no more gas bills. Our kids enjoy clean air and a cool planet! Getting around on clean, renewable energy is a household-no-brainer.

Curious to learn more? Join the pack!

At a free event sponsored by Cool the Earth, a nonprofit organization, you can test-drive EVs and learn about a group purchase opportunity that can save thousands.

And remember: Marin dogs drive electric!
